SMART POWER_{Taurus X6L}

User Manual

Thank you for purchasing our product. For optimum performance and safety, please read this user manual carefully before operating the product. Please keep this user manual for future reference.

■ Product overview

■ Digi-Power Technology

Unique smart digital display technology, showing exact remaining power in digital format.

■ iM-Power Technology

1. Exclusive intelligent charging technology specially for iPhone, providing charging speed up to 200% compared to original charger.
2. Automatically identifies charging devices, providing optimal current to charge faster and safer.

■ Charge Times

New MacBook
2 times

iPhone 8
10 times

iPad Mini 4
3.7 times

Galaxy S8
6.3 times

LG G6
5.8 times

■ Features

1. Ultra compact design: optimum size with 30000mAh capacity.
2. Digi-Power Technology: shows exactly remaining power in digital format.
3. High capacity and top quality: 30000mAh capacity with build-in A-Class Li-Polymer batteries. The quality is guaranteed and makes the power bank safer to use.
4. iM-Power Technology: detects your device intelligently and delivers the faster charge.
5. Compatibility: fits for almost all USB-powered devices.
6. Super functional design: 3*USB 5V/3.4A (Max.), 3 USB ports charge 3 devices at the same time.
7. Multiple Smart Protection System: keeps your devices safe from over-charging, over-voltage, over-current, and short circuit.

■ Specification

Model: Taurus X6L

Battery Type: Li-Polymer

Capacity: 30000mAh/111Wh

Input: Micro USB 5V/2.1A (Max.)

Output: 3*USB 5V/1-3.4A (Max.)

Color: White & Red, Black & Gold

Size: 6.69 x 3.4 x 1.18 inches

Weight: 21.48 ± 0.35 oz

■ How to use X6L

1. Turn on: Press power button shortly. Digital screen will start showing remaining power once it has been started successfully.
2. Turn off: X6L will turn off indicator light automatically when remained idle for 5+ sec and completely shut down when remained idle for 40+ sec.

- Notes:**
1. Please use original or imuto's charging cable for recharge.
 2. It is normal that X6L gets a little warm when multi-devices are charging at the same time.
 3. If your device's battery runs out, the charging speed may get slower because of the battery self-protection.

■ How to charge X6L

1. Charge by computer or certified adapter.
2. Smart digital screen flashes and shows the percentage of remaining power when the power bank is charging.
3. The screen stops flash and shows "100" when fully charged.

Note: The digital screen flashes while recharging the power bank and charging devices at the same time.

■ How to charge your device

1. Use your device's original cable or imuto cable to connect your device to USB port of this power bank.
2. Turn on the power bank.
3. Disconnect your device when it gets fully charged.

■ What's in the Box

1. Power Bank *1
2. Pouch *1
3. User Manual *1
4. Micro USB Cable *1
